

Oklahoma GEAR UP Grant Writing Workshop

Things to Bring to the Grant Writing Workshop

- Gather a team together and identify one area of concentration for the next school year to focus on for funding.
- Identify a funding source, if possible. If no funding source is identified, email Terri at grissote@gmail.com to discuss your program idea to receive assistance in identifying a funding source prior to the workshop.
- Discuss the impact of the grant on student achievement with your team and gather and bring data to the workshop to assist in justifying the need.
- Write a brief paragraph describing the program design.
- Create and bring with you a brief budget and identify the costs for program implementation.
